NANDAN BENDARKAR STEPS UP TO BECOME GMN'S ASIA PACIFIC REGIONAL PRESIDENT

After three years at the helm of our Asia Pacific region, Joe Ciccio of Weston Woodley & Robertson in Sydney, has decided to step down to focus on work and family commitments. Previous Vice President, Nandan Bendarkar, of MBK Auditing in Dubai has therefore stepped into Joe's shoes. Although it is only very early days for Nandan in this role he is already evaluating and prioritising issues that concern him so that, with Joe's welcome guidance, he can take the region forward.

Nandan is the Managing Director of MBK Auditing. He is a financial planning and management expert, an Associate Member of the Institute of Chartered Accountants, India and has achieved certificates of excellence in various areas from Harington Watt University Edinburgh, UK. He has also completed Management Development Program in Strategic Financial Management from the prestigious IIM-A (Indian Institute of Management, Ahmedabad) and is a Qualified Independent Director from the Institute of Directors in London, UK. He has a Stafford Certificate in Human Resource Management and is a Certified Trainer in accounts, finance, and soft skills with special interest in verbal and written communications from TAP Foundation.
